OBJECTIVE

I'm a software developer with 4+ years of experience building web and mobile applications using React, Next.js, Flutter and React Native. I specialize in creating fast, user-friendly solutions and am looking for opportunities to contribute to impactful projects

SKILLS

Technical skills	React/Next js, Vue & Nuxt js, Javascript & Typescript, SEO, Tailwind CSS, GCP & AWS, Flutter, React Native, Firebase, Mongo DB, Node js, Redux, Express js, CI/CD, Postgres, SQL & NoSQL databases, HTML, CSS, Electron CSS, SASS, Tailwind, Bootstrap
Soft skills	Enjoys trying new tools, great team player, attention to detail, critical thinker, good communication skills, ability to find creative solutions to problems, content creation

EXPERIENCE

Software Developer (FE Heavy), Resolut Business Solutions LTD Jan 2024 | Hybrid, Ghana

- Built and maintained a full digital banking mobile app from scratch using modern frontend frameworks.
- Developed responsive landing pages and web apps for key fintech features like payment links and transfers.
- Contributed to the delivery of a salary advance mobile application, improving employee financial access.
- Ensured seamless UI/UX by implementing Figma designs across web and mobile platforms.
- Collaborated closely with backend and product teams to ship features quickly in an agile environment.
- Prioritized performance and responsiveness across all apps for optimal user experience.
- Applied secure coding practices relevant to financial data handling.

Software Developer (FE Heavy), Christiania Glasmagasins Mar 2023 | Remote, Norway

- Migrated an e-commerce app from PHP to React/Next.js, improving load times by 3x and enhancing the user experience.
- Implemented Figma designs into responsive web applications.
- Improved SEO ranking to #1, increasing organic traffic.
- Worked in a small agile team to deliver features and updates efficiently.
- Actively maintained projects for optimal performance and continuous enhancement.

Software Developer, Openwaver Company LTD Mar 2020 | Remote, Nigeria

- Led frontend development for two NFT projects, generating \$30k in sales.
- Overhauled the company's website in 1 month, improving performance and user satisfaction.
- Integrated RESTful APIs into frontend systems to improve functionality.
- Delivered 8+ web applications, reducing onboarding time by 40%.

Senior Frontend Developer, JustGo Health Oct 2022 | Remote, Ghana

- Developed internal tools and the main dashboard using React and Next.js.
- Built most of the core features for the company's healthcare platform, improving usability and performance.
- Worked on the dashboard to help manage patient records and workflows more efficiently.
- Simplified the signup process, cutting onboarding time by 50%.
- Created key UI components to make the platform easier to use and more accessible.

Software Developer, Opensource Contributions Jan 2020 | Remote

- Contributed to well-known open-source projects like LinkFree (BioDrop), WhisChat, and TweetSage, with my code reviewed and merged into the projects.
- Designed and developed user interfaces, focusing on creating functional and visually appealing components.
- Worked collaboratively with global developers, improving my programming skills and commitment to open-source development.
